WILSON SAYS SUBMARINE ISSUE MAKES U. S. HONOR THE PRICE OF YIELDING

President in Letter to Senator Stone Says Neutrality May Cause International Law to Crumble Entirely by Submitting to Any Change at Demand of Belligerents

Special to The Democrat-Forum.

Washington, Feb. 25.—A resolution to prevent President Wilson from severing diplomatic relations with Germany without obtaining the consent of congress was introduced into the senate today by Jones of Washington.

William Jennings Bryan, former secretary of state, injected his personality into the fight against Wilson this morning. He telegraphed an indorsement of the stand of many senators and representatives on the warning of Americans off of armed belligerent ships.

The cabinet today assured the president that its members are behind him to the man in his decision to refuse to permit congress to interfere with international affairs at this time.

Speaker Clark Smothers Discussion.

The first effort to discuss the submarine issue on the floor of the house was smothered today by Speaker Clark. President Wilson received a call this morning from Speaker Clark, Majority Leader Kitchin and Foreign Affairs Chairman Flood for a discussion of the international situation.

The caucus lasted for an hour. Wilson stood squarely behind his letter to Senator Stone (which is given in full in the following), in which he states that there can be no backing down from the position taken that the rules of international law shall be observed by all the belligerent powers.

The president said that this stand applied with particular force at this time to the determination of the Teutonic powers to change their method of conducting the submarine warfare.

The house leaders assured the president that they would do all in their power to prevent any interference by congress until all diplomatic measures shall have been exhausted. They went at once from the White House to the capitol to take up the matter with the members individually.

President Wilson's Letter.

The president's letter in reply to Senator Stone follows:

"February 24, 1916.—My Dear Senator: I very warmly appreciate your kind and frank letter of today and feel that it calls for an equally frank reply.

"You are right in assuming that I shall do everything in my power to keep the United States out of war. I think the country will feel no uneasiness about my course in that respect. Through many anxious months I have striven for that object, amidst difficulties more manifold than can have been apparent upon the surface and so far I have succeeded. I do not doubt I shall continue to succeed.

"The course which the Central European Powers have announced their intention of following in the future with regard to undersea warfare seems for the moment to threaten insuperable obstacles, but its apparent meaning is so manifestly inconsistent with explicit assurances recently given us by those powers with regard to their treatment of merchant vessels on the high seas that I must believe that explanations will presently ensue which will put a different aspect upon it. We have had no reason to question their good faith or their fidelity to their promises in the past and I, for one, feel confident that we shall have none in the future.

Our Duty is Clear.

"But in any event our duty is clear. No nation or group of nations has the right while the war is in progress to alter or disregard the principles which all nations have agreed upon in mitigation of the horrors and sufferings of war; and if the clear rights of American citizens should ever unhappily be abridged or denied by any such action, it seems to me, have in honor no choice as to what our own course should be.

"For my own part, I cannot consent to any abridgment of the rights of American citizens in any respect. The honor and self-respect of the nation is involved. We covet peace and shall preserve it at any cost, but the loss of honor. To forbid our people to exercise their rights for fear we might be called upon to vindicate them would be a deep humiliation, indeed. It would be an implicit, all but an explicit, acquiescence in the violation of the rights of mankind everywhere and of whatever nation or allegiance. It would be a deliberate abdication of our hitherto proud position as spokesmen even amidst the turmoil of war for the law and the right. It would make everything this government has attempted and everything that it has achieved during this terrible struggle of nations meaningless and futile.

Would Annul Neutral Rights.

"It is important to reflect that if in this instance we allowed expediency to take the place of principle, the door would inevitably be opened to still further concessions. Once accept a single abatement of right and many other humiliations would certainly follow and the whole fine fabric of international law might crumble under our hands piece by piece.

"What we are contending for in this matter is of the very essence of the things that have made America a sovereign nation. She cannot yield them without conceding her own impotency as a nation and making virtual surrender of her independent position among the nations of the world.

"I am speaking, my dear senator, in deep solemnity without heat, with a clear consciousness of the high responsibilities of my office and as your sincere and devoted friend. If we should unhappily differ, we shall differ as friends; but where issues so momentous as these are involved we must, just because we are friends, speak our minds without reservation. Faithfully yours,

"Woodrow Wilson."

Stone Does Not Want War.

The contrast is emphasized by the following paragraph from the Stone letter to the President:

"I find it difficult for my sense of duty and responsibility to consent to plunge this nation into the vortex of this world war because of the unreasonable obstinacy of any of the powers upon the one hand, or, on the other hand, of foolhardiness, amounting to a sort of moral treason against the Republic, of our people recklessly risking their lives on armed belligerent ships. I cannot escape the conviction that such would be so monstrous as to be indefensible."

Undue German Influence Charged.

New York, Feb. 25.—That undue German influence is being exerted in congress is intimated by various sections of the New York press from the developments at Washington.

Pacific Fleet Lacks 5,000 Men.

Washington, D. C., Feb. 25.—Admiral Winslow declared today that the present Pacific fleet of the United States lacks 5,000 men of having an efficient fighting force.

Southerners Want Cotton Probe.

Washington, D. C., Feb. 25.—Charging that the New York cotton exchange was so manipulated as to cause a depression in the prices of cotton by unfair and crooked methods, Congressmen of the southern cotton states have organized to force an investigation.

Fletcher Confirmed as Ambassador.

Henry P. Fletcher, appointed by President Wilson as ambassador to Mexico, was confirmed today by the senate.

REST OF THE GOSSIP

MRS. K. N. O. ITALL TELLS ALL SHE FORGOT.

"OPRY" TROUPE GREATEST

And Josiah and Nancy, Bride and Groom and All Were "Some" Actors.

Mehetabel Faustina, the dear child of Mrs. I. Dew Doubtit was suddenly attacked with that dread malady, irritability, from which so many dear children suffer at times, so Mrs. Doubtit called Mrs. K. N. O. Itall over this morning for a few minutes to tell her all about the "Union Depot."

Before she gets to the door, the visitor begins eagerly: "Let me tell you that was a real show from the beginning to the end. As I told you yesterday, the various actors were well suited to their parts but I had no idea that so much ease and action could be put in a home talent play."

"Shall I begin at the first or tell you just as it comes to me? The shockingest thing was the beautiful young girl which F. P. Reuillard, the lunch man, was loving. She was his assistant in the lunch stand. She sure was one peacherine and some of the darling young men of about seventeen summers that occupied the box on the north side would have willingly loved her too judging from their actions.

"O, no, Mr. Reuillard really would not love a real girl, he is not that kind of a man, no, no, don't be so shocked. It was a boy dressed up as a girl. Ora Brunson was his or her name. Now please don't interrupt me with such suggestions again. It was great, though to see them young fellows falling for her.

Josiah and Nancy Some Rubes.

Arch Frank certainly missed his calling for he is a typical rube from Rubeville as Josiah; and Nancy, O, say, you missed the best show in your life. Mrs. G. H. Colbert would not have recognized herself in the pearly city in the rig she wore. Both she and Josiah were very clever.

"The real high-class stunt was the 'opry' troupe and the audience was abundantly generous with their applause. Folks are all saying today that it is the finest thing of its kind ever given in Maryville.

"And say, Marcia Cutler and Clarence Cook as the newly-weds on their wedding 'tower' were just too good. And as far as college rah! rah! singers go, that boys' quartet of Clarence Cook, Roland Curnutt, Donald Hagins and Philip Colbert are there with the close harmony.

"But the real marvel of the evening was the acting of little Miss Emma Ruth Bellows, infant daughter of Mr. and Mrs. Dale Bellows. Although she was abandoned, roughed up, and put into the arms of three strangers within five minutes, she did not cry or seem scared at all.

"From Ruth Reuillard as an Italian dancer to Guy Henry as the toothless janitor of the station is a long jump in grace and beauty but there wasn't much difference if any in the excellence of their acting. Lona Gilbert and Laverne Robey were fine as Cassy and Jupiter, too.

"I don't know whether I have told you all the acts or not. There were so many in the play. But I left my bread in the oven and I must go. Come over later and I'll tell some more."

CLEARMONT QUITS

OPPOSITION OF FARMERS TOO MUCH FOR MERCHANTS.

ELECTION TUES. FORMAL

Statement Made by Petitioners on Consolidation of Their Attitude on School Question.

The ill-feeling over the fight at Clearmont seems to be growing higher. The farmers do not want consolidation of the school districts, but the Clearmont voters can almost swing the election unless a full opposition vote is polled and there is a minority in each country district which believes that it is a good thing.

So the farmers who did not want the issue began to vent their displeasure upon the Clearmont men and merchants who had signed the petitions. Lacking the stamina, as some assert, to see the vote through and let the wisdom of the course be demonstrated in the future as it has been in so many places, the petitioners have ceased to work for the change, and have issued the following statement through Superintendent Cooper:

"Owing to the lack of support on the proposition, the petitioners for the election have asked that the matter be called off and no election for consolidation be held next Tuesday at Clearmont, as was previously announced.

"The law does not provide for any means of withholding the election now the notices have been posted, and the only means of disposing of the matter is to formally vote it down, and this the signers have agreed to do with no fight or votes for the matter.

"The election has been practically called off, and County Superintendent Cooper will deputize some party at Clearmont to formally dispose of the proposition at the appointed time, as the law provides. Opposition has been strong, and it is not the will of the Clearmont people that farmers feel that the town is forcing a thing upon them."

A MARYVILLE RHYMSTER

W. G. GROSS IMPROVES ON "BOOSTER" POEM HE CLIPPED.

Members of Commercial Club Obtain Possession of "Jingle" and Want to See What You Think of It.

The following poem is part "home talent" and the rest adapted. W. G. Gross, a Maryville painter, has the happy faculty of "making things jingle." The first stanza was clipped and Mr. Gross made a try at improving on the first in the second. Has he succeeded?

Be a Booster.

Boost your city, boost your friend,
Boost the lodges that you attend,
Boost the street on which you dwell,
Boost the goods that you do sell,
Boost the people 'round about you,
They can't get along without you,
But success will quicker find them
If they know that you're behind them.

Boost for every forward movement,
Boost for every new improvement,
Boost the man for whom you labor,
Boost the stranger and the neighbor,
Cease to be a chronic knocker,
Cease to be a progress blocker
If you'd make your city better,
Boost it to the final letter.

CHANNEL PREVENTED FLOOD

Nodaway River in Banks Around Burlington Junction and Into Bottoms Elsewhere.

The new channel of the Nodaway, which has practically kept the river from flooding the bottom this spring, has not been so accommodating to the country down below, where the old crooked channel still has to carry all of the water.

When the new and old river was running bank full here, the situation was bad from Quitman south, as the water was over the lowlands and ice was piled up in many places. The road west of Quitman could not be crossed and one farmer who had gone over to Quitman to do some trading had to return home by the way of Burlington Junction, making about ten miles further than by the direct road. —Burlington Junction Post.

Mrs. W. H. Tilson remains about the same, but her condition is so hopeful that most of the children have returned home.

PRACTICE GAME TONIGHT

"BEARCATS" AND M. H. S. FIVE TO MEET AT NORMAL.

Canceling of Games Causes Open Dates—Democrat-Forum "Panned" for Yesterday's Stand.

Westminster cancelled its game with the Normal for tonight several weeks ago and the Maryville High School's game in St. Joseph with Benton High was changed to March 10 so both local teams have a rest tonight. They will use the time in a practice game at the Normal gym.

The regular "Bear Cat" team will line-up tonight against the M. H. S. quintet. No charge will be made for those who care to watch the game. This is the first time since early in the season that the teams have had a chance to meet.

The "spineless subservieney" of The Democrat-Forum last night in the reporting of the Tarkio basketball game had rather an interesting effect upon the rooters for Maryville and in some quarters, indignation meetings against Referee Gowdy for permitting and abetting a 32-23 decision were changed into protests against the paper "which never takes a stand."

Two students of the high school have shown a desire to express themselves upon the question and this has been granted. Two letters will be printed tomorrow on the issue. One holds that the actions of the Maryville rooters were perfectly justifiable and the other upholds the opinions of the writer of yesterday's article.

FORUM ON PREPAREDNESS

The Rev. W. M. Case Will Follow Brotherhood Debate of Tuesday at Sunday Evening Service.

The Rev. William Moll Case, pastor of the First Presbyterian church, will hold another forum at the Sunday night service, following up points brought out in the preparedness debate at the men's banquet at the church Monday night.

Mr. Case will first talk on "In the light of what He said and did, can Jesus Christ be rightfully invoked as the high priest of the preparedness propaganda?"

The meeting will then be left open to discussion.

Russians Win Another Great Victory Over Turks—Durrazzo Now Undergoing Close Siege.

Special to The Democrat-Forum.

Paris, Feb. 25.—The admission by the French war office of the capture of Beaumont by the German drive toward Verdun indicates that the Teutons have gained about a mile of ground along all the front in the region of Verdun.

The French have re-established their lines behind Beaumont, along the heights of East Champaign and South Ornes. For the first time in four nights the Germans did not deliver a night attack, and there was a comparative lull in the fighting.

Verdun Doomed to Fall.

That Verdun is doomed to fall before the attacks of the German army is the opinion of German military authorities today. The enemy's losses have been extremely heavy.

Petrograd, Feb. 25.—The Russians have won another great victory over the Turkish forces in Persian territory. The Ottoman forces are in full retreat toward Kermanshah with the Russians pursuing.

HAROLD RYAN I IDN'T ENTER

Not Able to Practice All Week, Star High Jumper Says in Letter to Parents.

A letter has been received from Harold Ryan by his parents, Dr. and Mrs. F. M. Ryan, in which he indicates that he would not enter the track meet of the South Atlantic states because of not being able to practice any the week before. The letter was mailed last Saturday afternoon.

The fact that no further word has been received leads Dr. and Mrs. Ryan to believe that Harold did not enter the meet. His work at Baltimore in the North Atlantic states meet in which he cleared the bar at 6 feet is considered equal to professionals' work.

Mr. Ryan did not indicate in his letter whether he would be in Kansas City Saturday or not.

WANT B. J. RE-DISTRICTED

Petition Asks for Three Wards in Place of Two to Equalize Representation.

A petition has been circulated among Burlington Junction business men and citizens, and now contains over thirty names, asking the city council to redistrict the town so that the population of the wards will be more equal. The petition was circulated Saturday and every man who was approached with it signed it except one, which shows that the plan is generally endorsed.

Under the new plan asked for by the citizens there will be three wards, the first ward being the same as it is at present, the second being all of that part of town south of Main street and Roseberry avenue to the southeast corner of Roseberry avenue, then north on Blanche street to Custer street, then east to the city limits. Under this plan the population would be more evenly divided, the first ward having 55 votes, the second 38 and the third 84.

The signers are:

THE WHEAT WAS NOT KILLED

Slight Snow Blanket Before Ice Protected It—"Nipped" Around Burlington Junction.

The wheat was not killed by the heavy sleet and ice that covered the ground for almost three weeks, according to farmers who have examined the plants. It was thought that practically all of the wheat would be badly damaged or killed, but it is coming out in fine shape.

While in some places the top of the plant was nipped a little the main part of the plant seem healthy. While there is not a great deal of wheat in this locality this year, it would have meant quite a loss to have it killed, as the wheat brings money to many farmers just when they are needing it.—Burlington Junction Post.

It is said by the farmers in and around Maryville that the slight snow which fell before the sleet and ice formed a blanket which protected the wheat and accounts for its not being completely killed.

The Sentinel received first of the week "The Pictured Bulletin" of the Fifth District Normal school of Maryville. Northwest Missouri is proud of this great institution, one of the greatest in the state.

BOOHER BEHIND PRES. WILSON

Congressman From This District Says Something Will Have to Be Done to Change Him.

That Congressman Booher of this district is behind President Wilson in his attitude toward the Teutonic powers' submarine policy is shown by the following special dispatch in the Kansas City Star:

"On sober second thought there appeared to be a disposition with many Democrats, who were among the most ardent "insurgents" yesterday to give the president a free hand and not to embarrass his position. This feeling was expressed by Representative Booher of St. Joseph, who, by the way, took no part in yesterday's revolt. Representative Booher said:

"The president is intrusted with handling the diplomatic situation.

"He has done so with marked success thus far. I am from Missouri and I will have to be shown that he has made a mistake before I will consent or be a party to any action in any way tying his hands or embarrassing him."

As sure to rise as the Sun

You can't always make everything "just so." Sometimes you will get in more shortening than usual; or make the batter a little thin; or it may not be convenient to put a cake in the oven the moment it is mixed; or your oven may not bake evenly and it is necessary to turn the pan around—none of these little uncertainties make the slightest difference in results if you use

KC BAKING POWDER

This modern, double-raise baking powder has unusual strength and is absolutely certain to raise your biscuits, cakes and pastry light and feathery. It generates an abundance of leavening gas both in the mixing bowl and in the oven. The raising is sustained until the dough is cooked through.

Housewives who use K C never have "bad luck" with their baking. Try K C *at our risk.* Your grocer will refund your money if you are not pleased in every way. 57

St. Louis Mothers Agree With Those Of Kansas City And St. Jo.

Children's Colds, They Say, Should Be Treated Externally — Internal Medicines Are Harmful.

In our previous advertisements we have published letters from mothers in Kansas City, St. Jo., Joplin, Springfield and other Missouri cities. These ladies agree that internal medicines injure the delicate stomachs of the little folks, and they recommend the use of the external treatment—Vap-O-Rub. From a large number of letters from St. Louis women we will give just a few extracts.

Mrs. K. Petranich, 2900 Park Ave., writes—"Last winter when I had a bad cold I applied Vap-O-Rub over my chest and throat covering with a warm flannel cloth. I had almost instant relief, and believe it better than internal medicines for cold troubles."

Mrs. S. J. Wolf, 2341 Dodier St., says—"I used Vick's Vap-O-Rub on my baby who had bronchitis. I applied it over his chest, following directions, and the next morning he breathed easier."

Mrs. M. Hickman, 4020a Laclede Ave., says—"I have given Vick's Vap-O-Rub a thorough trial for headache, cold in the head and chest, cuts and burns and find it without an equal."

Mrs. W. J. Himmelberg, 630 Lynch St., writes—"I recommend Vap-O-Rub to all mothers with small children. I tried it on my children for colds, sore throat, tonsilitis, and burns, and it certainly gave us great results."

Mrs. J. T. Shepard, 4221a No. 9th Street, writes—"My husband had a very sore throat, as he has had several times before, and always hitherto he has had to have it lanced; but this time he used Vap-O-Rub and was cured without any trouble."

Vick's comes in salve form and when applied over the throat and chest the body heat releases the ingredients in the form of vapors. All night long these vapors are inhaled with every breath through the air passages to the lungs, loosening the phlegm and taking out the tightness and soreness. You will find it quicker than internal medicines, and it can be used freely with perfect safety on the smallest child. Three sizes, 25c, 50c or $1.00. At all druggists.

B. J. WILL HAVE LYCEUM

LECTURE COURSE NEXT YEAR ALMOST GIVEN UP.

But Several Students of High School Got Out and Sold Enough Tickets.

The Midland Lyceum bureau of Des Moines, Ia., will furnish the lecture course in Burlington Junction next winter.

This was assured the last of the week when several students from the high school went out on the streets and made a house to house canvass for tickets, selling enough to almost pay for the course. The executive committee from the high school was then appointed of the following officers:

Richard Zarn, president; Gladys Praisewater, secretary; John Houston, treasurer. The numbers on the course are:

Dr. L. G. Herbert.
Francis J. Gable.
The Potters.
Cambridge Players.
Beverly Entertainers.

The course had practically been given up for next year, as the one the past winter proved so disastrous financially. But the people of Burlington Junction want a lecture course, and when some of the high school students put their shoulders to the wheel the following business men signed the guarantee to insure the course:

W. H. Rust.
